## **CURRICULUM VITAE**

## **Tsugio Sato**

**Professor** 

Director of Center for Exploration of New Inorganic Materials, Institute of Multidisciplinary Research for Advanced Materials, Tohoku University

## Address:

2-1-1 Katahira, Aoba-ku, Sendai 980-8577, Japan

**Tel&Fax**: +81-22-217-5597

E-mail: tsusato@tagen.tohoku.ac.jp

Tsugio Sato was born in Iwate, Japan, in 1951. He received a BEng, MEng and Ph. D degree in applied chemistry from Tohoku University in 1973, 1975 and 1980, respectively. He worked as a research associate at the Faculty of Engineering, Tohoku University in 1975. He became a visiting researcher at Monash University in Australia during 1981-1982. He has been a lecturer and associate professor at the Department of Molecular Chemistry and Engineering, Tohoku University in 1987 and 1989. He has been a professor at the Institute for Chemical Reaction Science, Tohoku University in 1994, and at the Institute of Multidisciplinary Research for Advanced Materials, Tohoku University in 2001. He has also a visiting professor of Huagiao University, Chinese Academy of Science, the Beijing University of Technology, and Lanzhou University (China). has received several awards for his research excellence from various societies such as the Chemical Society of Japan, the Inorganic Materials Society of Japan, the Ceramic Society of Japan, etc. He has authored close to 600 original research papers published in the international journals. Professor Sato's current research interests include the morphology control of ceramic materials for multifunctional environmental harmony materials, visible light responsive photocatalysts for environmental cleanup, inorganic UV & NIR-shielding materials, fluorescence nanoparticles, automobile waste gas cleanup catalysts, etc.
