

CURRICULUM VITAE

Name : **ATTERA WORAYINGYONG**
(อรรณฐิรา วรยั้งยง)

Birth Record: August 23, 1957, Bangkok, Thailand; Female

Education:

B.Sc. (1977) [Chemistry], Chulalongkorn University,
Bangkok, Thailand
M.S. (1982) [Chemistry], University of Houston, U.S.A.
Ph.D. (1992) [Chemistry], University of Aberdeen, U.K.

Research Fellow:

1986-87 Deutscher Akademischer Austauschdienst
(DAAD), Federal Republic of Germany
1979-81 University of Houston, U.S.A.

Scholarship

1990-92 University of Aberdeen, U.K.

Profession:

2006-Present Associate Professor, Kasetsart University
1990-2006 Assistant Professor, Kasetsart University
1983-90 Lecturer, Kasetsart University
1977-78 Analytical Chemist, Ministry of Industry

Present Address:

Department of Materials Science, Faculty of Science,
Kasetsart University, Bangkok 10900
THAILAND
<http://www.mat.sci.ku.ac.th>
Tel. +66-2-562 5555 ext. 1555 Fax. +66-2-742 6843
e-mail fsciarw@ku.ac.th

Publications:

1. Effects of cerium dopant concentration on structural properties and photocatalytic activity of electrospun Ce-doped TiO₂ nanofibers, **A. Worayingyong**, S. Sang-urai, M. F. Smith, S. Maensiri, S. Seraphin, *Applied Physics A*, 2014, DOI 10.1007/s00339-014-8501-5.
2. [Effect of nitrogen doping on the reducibility, activity and selectivity of carbon nanotube-supported iron catalysts applied in CO₂ hydrogenation](#), L, M, Chew, P, Kangvansura, H, Ruland, H. J. Schulte, C. Somsen, W. Xia, G. Eggeler, **A. Worayingyong**, M. Muhler, *Applied Catalysis A: General*, 2014, 482, 163.
3. Ce-doped nanoparticles of TiO₂: rutile-to-brookite phase transition and evolution of Ce local-structure studied with XRD and XANES, S. Kityakarn, **A. Worayingyong**, A. Suramitr, M. F. Smith, *Materials Chemistry and Physics*, 2013, 139, 543-549
4. (Photo)Electrochemical characterization of nanoporous TiO₂ and Ce-doped TiO₂ sol-gel film electrodes, Sutasinee Kityakarn, Yingyot Pooarporn, Prayoon Songsiririthigul, **Attera Worayingyong**, Simone Robl, Andre M. Braun, Michael

- Woerner, *Electrochimica Acta*, 2012, 83, 113-124
5. Structural characterizations of sol-gel synthesized TiO₂ and Ce/TiO₂ nanostructures, A. Niltharach, S. Kityakarn, **A. Worayingyong**, J.T-Thienprasert, W. Klysubun, P. Songsiriritthigul, S. Limpijumnong, *Physica B*, 2012, 407, 2915-2918
 6. Local structures of cobalt in Co-doped TiO₂ by synchrotron x-ray absorption near edge structures, J.T-Thienprasert, S. Klaithong, A. Niltharach, **A. Worayingyong**, S. Na-Phattalung, S. Limpijumnong, *Current Applied Physics*, 2011, 11, S279-S285
 7. Promoted and un-promoted Co/SiO₂ Fischer-Tropsch catalysts, Sanya Prangsriaroon, Pinsuda Viravathana, Waritsara Bangmek, **Attera Worayingyong**, Wiyong Kangwansupamonkon, Olaf Deutschmann, Hans Schulz, *Advanced Materials Research*, 2011, 287-290, 3093-3097
 8. Determination of phase ratio in polymorphic materials by x-ray absorption spectroscopy: The case of anatase and rutile phase mixture in TiO₂, M.F. Smith, W. Klysubun, S. Kityakarn, **A. Worayingyong**, S.B. Zhang, S.H. Wei, D. Onkaw, P. Songsiriritthigul, S. Rujirawat, S. Limpijumnong, *Journal of Applied Physics*, 2009, **105**, 024308
 9. Schiff base complex sol-gel method for LaCoO₃ perovskite preparation with high-adsorbed oxygen, **Attera Worayingyong**, Praewpilin Kangvansura, Sutasinee Kityakarn, *Colloids and Surface, A: Physicochemical and Engineering Aspects*, 2008, **320**, 123-129
 10. The effect of preparation: Pechini and Schiff base methods, on adsorbed oxygen of LaCoO₃ perovskite oxidation catalysts, **Attera Worayingyong**, Praewpilin Kangvansura, Siritha Asadasuk, Piyasan Praserttham, *Colloids and Surface, A: Physicochemical and Engineering Aspects* 2008, **315**, 217
 11. A comparative study of doped and undoped sol-gel TiO₂ and P25 TiO₂ (photo) electrodes. Y. Pooarporn, **A. Worayingyong**, M. Wörner, , S. Songsiriritthigul, A. Braun, *Water Science & Technology*, 2007, **55**, 153-160
 12. A Comparative Study of Toluene Catalytic Oxidation over Cerium/TiO₂(anatase) and Vanadium/TiO₂(anatase) Catalysts. **A. Worayingyong**, A. Niltharach, Y. Poo-arporn, *Science Asia*, 2004, **30**, 341-349
 13. Asymmetric Ethylation of Aromatic Aldehydes by Diethylzinc in the Presence of Chiral Auxiliaries Derived from (S)-[4-HOC₆H₄CH₂CH(NH₂)CPh₂OH]. J.L. Wardell, **A. Worayingyong**, *Applied Organometallic Chemistry*, 1995, **9**, 547
 14. Momentary Material Balance for Zeolite Deactivation of N-Dodecane Catalytic Cracking. **A. Worayingyong**, *Journal of Science Society Thailand*, 1989, **15**, 191
 15. Eine Methode zur Ermittlung der Momentanen Stoffbilanz und der Zeitabhängigen Selektivität beim Katalytischen Cracken. **A. Worayingyong**, S. Zhao, H. Niederberger, H. Schulz, 22th Intern. Sem. für Forschung und Lehre. Karlsruhe. 1987 p.93

Proceedings:

1. Selectivity of cerium promoted cobalt catalysts on mesoporous silica: aerosil and MCM-41 for Fischer-Tropsch synthesis, Anwaraporn Niltharach, Sutasinee Kityakarn, Korakoch Prangthong, Somruedee Klaithong, Jirarof T-Thienprasert, Pinsuda Viravathana, Hans Schulz, **Attera Worayingyong**, 241st American Chemical Society National Meeting, Preprint in Fuel Chemistry, Anaheim, USA, 2011, (Oral presentation)
2. Preparation and characterization of supported cobalt catalysts for Fischer-Tropsch synthesis, Sanya Prangsri-aroon, Pinsuda Viravathana, **Attera**

- Worayingyong**, Wiyong Kangwansupamongkol, Hans Schulz, Proceedings in American Chemical Society Conference, Division Petrochemistry, San Francisco, USA, 2010, 55(1), 141 (Poster presentation)
3. Co/TiO₂ and Ce/Co/TiO₂ Fischer-Tropsch catalysts: Preparation and characterization, S. Klaithong, S. Kityakarn, J. T-Thienprasert, S. Limpijumnong, **A. Worayingyong**, Pure and Applied Chemistry International Conference, Ubon Ratchathani, Thailand, 2010, p 821 (Oral presentation)
 4. Mesoporous silica supported cobalt catalysts for Fischer-Tropsch synthesis, K. Prangtong, S. Kityakarn, **A. Worayingyong**, Pure and Applied Chemistry International Conference, Ubon Ratchathani, Thailand, 2010, p 825 (Oral presentation)
 5. X-ray absorption spectroscopy study of Ti K edge and Ce L₃ edge in Ce-doped TiO₂ crystalline, A. Niltharach, **A. Worayingyong**, P. Songsiririthigul, Proceedings in Pure and Applied Chemistry International Conference, Bangkok, Thailand, 2008 (Poster presentation)
 6. Investigation of photoelectrochemical properties of nanoporous TiO₂ and Ce-doped TiO₂ catalysts by electrochemical impedance spectroscopy, Sutasinee Kityakarn, Yingyot Pooarporn, Simone Robl, Michael Wörner, **Attera Worayingyong**, Proceedings in the German-Thai Symposium on Nanoscience and Nanotechnology, Chonburi, Thailand, 2007, OC-01, p 94 (Oral presentation)
 7. Catalytic activity and electrical properties of LaCoO₃ perovskite as ammonia sensor, Praewpilin Kangwansura, Anchalee Wongariyakawee, Atchana Wongchaisuwat, **Attera Worayingyong**, Proceedings in the German-Thai Symposium on Nanoscience and Nanotechnology, Chonburi, Thailand, 2007, PC-03, p 237 (Poster presentation)
 8. Preparation of LaCoO₃ by the co-precipitation and wet powder dispersion processes, Sanya Prangsri-aroon, Pinsuda Viravathana, **Attera Worayingyong**, Proceedings in the German-Thai Symposium on Nanoscience and Nanotechnology, Chonburi, Thailand, 2007, PC-04, p 241 (Oral presentation)
 9. Thiophene adsorption on TiO₂ and Ce/TiO₂ photocatalysts: DRIFTS and XPS studies, Yingyot Pooarporn, Prayoon Songsiririthigul, **Attera Worayingyong**, Proceedings in the German-Thai Symposium on Nanoscience and Nanotechnology, Chonburi, Thailand, 2007, PD-05, p 267 (Poster presentation)
 10. Preparation of nano-LaCoO₃ perovskite by sol-gel methods: the Pechini and Schiff base complex, Praewpilin Kangwansura, **Attera Worayingyong**, Proceedings in the 32nd Congress on Science and Technology of Thailand, 2006 (Oral presentation)
 11. Study on catalytic activity of nano LaCoO₃ perovskite type oxide for oxidation of aromatics using DRIFTS, Sutasinee Kityakarn, Siritha Ausadasuk and **Attera Worayingyong**, Proceedings in the 31st Congress on Science and Technology of Thailand, 2005, p. 135 (Oral presentation)
 11. The effect of sol-gel method on the structure of cerium/TiO₂ (anatase) catalyst, Ramida Rattanakam and **Attera Worayingyong**, Proceedings in the 30th Congress on Science and Technology of Thailand, 2004, p. 106 (Poster presentation)
 12. Effects of the sol-gel synthetic method for perovskite LaCoO₃ and LaMnO₃ oxidative catalysts, Siritha Ausadasuk and **Attera Worayingyong**, Proceedings in the 30th Congress on Science and Technology of Thailand, 2004, p. 90 (Poster presentation)
 13. Studies of toluene catalytic oxidation over Ce/TiO₂ and V/TiO₂ catalysts, Yingyot Poo-arpoon and **Attera Worayingyong**, Proceedings in the 29th Congress on Science and Technology of Thailand, 2003, p. 114 (Poster presentation)

14. Studies of perovskite-type metal oxide catalysts for oxidation of organic chemical waste, **Attera Worayingyong** and Weerayut Srichaisiriwech, Proceedings in the 28th Congress on Science and Technology of Thailand, 2002 (Poster presentation)

Abstract Proceedings

1. Structural characterization of sol-gel synthesized TiO₂ and Ce/TiO₂ nanostructures, A. Niltharach, S. Kityakarn, **A. Worayingyong**, J.T-Thienprasert, W. Klysubun, P. Songsiritthigul, S. Limpijumnong, The 26th International Conference on Defects in Semiconductors, Nelson, New Zealand, 2011, (Poster presentation)
2. Structural characterization of sol-gel synthesized TiO₂ and Ce/TiO₂ nanostructures by XAS and TEM, S. Kityakarn, A. Niltharach, J.T- Thienprasert, W. Klysubun, S. Limpijumnong, S. Seraphin, P. Songsiritthigul, **A. Worayingyong**, Second International Conference on Multifunctional, Hybrid and Nanomaterials, Strasbourg, France, 2011, (Poster presentation)
