

Biodata

Andrew Smith was awarded BSc. (Honours) by the University of Queensland in 1984. After working in adhesives and composites fields, in 1989 he joined Courtaulds Coatings (since acquired by Akzo Nobel) as a Development Chemist in the Heavy Duty Coatings business. There he was involved in the development and testing of anticorrosive coatings. In 1994, he was promoted to Technical Manager for the Australasian Protective Coatings business and has subsequently held senior Regional Technical Management roles in Asia and the Americas. Andrew is currently Technical Manager, Protective Coatings – South Asia and is responsible for product development and testing, product integrity and technical support in India, South East Asia and Australasia.
